A broad range of investment solutions

We provide access to a suite of investment products.

Every trade your investment advisor places is handled by a powerful trading platform and teams ready to support you.

Equities

Schwab equity specialists have access to all major national and regional exchanges. They are available to help with orders of listed or over-the-counter stocks, large orders, and thinly traded issues, and they strive to obtain the best price. The Schwab Advisor Services Trading Desk™ offers a full array of trading services with experienced traders specializing in equities, fixed income, and mutual funds. Your advisor can tap into this powerful suite of services to help you optimize your investments.

Fixed income

Working with Schwab, your investment advisor can access over 125,000 individual securities from more than 200 dealers and hundreds of bond funds.⁴ This degree of access enables your advisor to select products to meet your capital preservation and income goals in one place. If municipal, corporate, or government instruments are appropriate, Schwab fixed income specialists use best efforts to identify favorable combinations of rates and maturities.

Mutual funds

Does your investment strategy include mutual funds? Your advisor has access to our industryleading Mutual Fund Marketplace*, featuring a range of mutual fund managers from almost every asset class. Your investment advisor can choose from nearly 17,000 mutual funds from more than 650 fund families—including about 9,000 with no loads and no transaction fees through Schwab Mutual Fund OneSource*.⁵ Schwab’s Institutional No Transaction Fee (INTF) fund platform offers funds from 17 asset managers— many with Morningstar Rating™ 4 or 5— so that your advisor can build more diverse portfolios that consider your time horizon, risk tolerance, and more. We give your investment advisor access to research and experts’ top fund picks.

Exchange-traded funds

Schwab provides your investment advisor with the support needed to invest in exchange-traded funds (ETFs) and other exchange-traded products. Your advisor can navigate options using the Schwab ETF Select List*, which identifies the lowest-cost affiliated and third-party ETFs in over 75 categories.⁶

Managed accounts

You and your advisor can leverage the expertise of professional asset managers who specialize in particular asset classes. You'll be able to tailor your investments to your interests and goals, and make adjustments if you need to manage your taxes via tax-loss harvesting.

Alternative investments

Schwab offers a variety of alternative investment options, including private equity and real estate, that aren't available through public exchange. Your advisor can help you customize these investments based on your needs and interests.

Investors should consider carefully information contained in the prospectus or, if available, the summary prospectus, including investment objectives, risks, charges, and expenses. You can view and download a prospectus by clicking on the Prospectus & Reports tab or calling 1-877-824-5615. Please read the prospectus carefully before investing. Past performance does not guarantee future performance.

Charles Schwab & Co., Inc. SIPC coverage

The securities and cash held in accounts of Charles Schwab & Co., Inc., including those held by clients of investment advisors with Schwab Advisor Services™, are insured against loss by the Securities Investor Protection Corporation (SIPC) in the event of brokerdealer failure, such as bankruptcy with client assets missing. SIPC provides up to \$500,000 to make whole those accounts that clients of investment advisors hold in each separate capacity (e.g., joint tenant or sole owner), with a limit of \$250,000 for claims of uninvested cash balances.⁷

Learn more about SIPC coverage at [sipc.org](https://www.sipc.org).

Additional insurance coverage

Lloyd's of London provides additional brokerage insurance for Charles Schwab & Co., Inc. accounts. This excess SIPC protection becomes available if there is an incident for which the SIPC limit of \$500,000 doesn't make a client account whole. The shortfall balance is eligible for a claim on the excess SIPC policy. Actual coverage is dependent on the program aggregate.⁸ Schwab's Excess SIPC program aggregate is \$600 million (the most the program will pay).

Compliance with government mandates

As a registered broker-dealer, Schwab is subject to the rules and regulations of the Securities and Exchange Commission (SEC), the Financial Industry Regulatory Authority, the Municipal Securities Rulemaking Board, and all other exchanges of which Schwab is a member. These regulatory entities have established financial responsibility rules designed to help safeguard client assets.

Accurate company financial reports

SEC Rule 17a-5 requires all registered brokerdealers to file periodic reports. These include regulatory and surveillance information providing accurate details of current financial and operational conditions. Schwab files these reports both monthly and quarterly, delivering full disclosure of the state of our company.

FDIC coverage

The Federal Deposit Insurance Corporation (FDIC) is an independent agency of the U.S. government that protects bank depositors against the loss of their insured deposits if an FDICinsured bank or savings association located in the United States fails.

All deposit accounts held at Schwab Bank, including the Schwab Bank Investor Checking™ account and the

Schwab Bank Investor Savings™ account, are FDIC-insured up to the applicable limits.⁹

Learn more about FDIC coverage at [fdic.gov](https://www.fdic.gov).

Keeping Schwab investments separate

Client securities—such as stocks and bonds that are fully paid for or excess margin securities— are segregated from broker-dealer securities, in compliance with the SEC’s Customer Protection Rule. This is a legal requirement for all broker-dealers.

In the unlikely event that a broker-dealer becomes insolvent, these segregated assets are not available to general creditors and are protected against their claims. Rigorous reporting and auditing requirements have been put in place by government regulators to help ensure that all broker-dealers comply with this rule.

Strength and scale for long-term financial health

It is important to know that your assets are being held by a fiscally healthy company. The Charles Schwab Corporation is financially strong, and we are committed to the continued health of our businesses.

Our capital structure and liquidity are both sound, our investment portfolio is diversified, and our internal controls and business standards are designed to safeguard the assets of all Schwab account holders. We focus on risk management and operate the firm conservatively to minimize investment risks. We know that our success depends on how well we serve our investment advisors and their clients.

We strive to remain a strong financial resource through business practices that emphasize:

- **Prudent expense management.** We keep a close eye on operational expenses to prudently manage our company. In a challenging market environment, we make quarterly adjustments to expenses as needed.
- **Diversified revenue mix.** By focusing on fee-related services and balance-related incomes, rather than trading commissions, we strive to stabilize our revenues during fluctuating market conditions.

Schwab and your
investment advisor are
committed to helping

you own your financial
future.

Strict privacy and security standards

MANAGED ACCOUNTS

Investments in managed accounts should be considered in view of a larger, more diversified investment portfolio.

Schwab's Institutional No Transaction Fee (INTF)

The Morningstar Rating®, or "star rating," is calculated for funds with at least a three-year history. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars and the next 22.5% receive 4 stars. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. Ratings do not take into account the effects of sales charges and loads. ©2022 Morningstar, Inc. All rights reserved.

Charles Schwab & Co., Inc. (member SIPC) receives remuneration from fund companies participating in the institutional no transaction fee (INTF) platform for recordkeeping and shareholder services, and other administrative services. Schwab receives greater remuneration on institutional share classes that participate in INTF than it would if the share class were made available with a transaction fee.

Schwab Bank makes its best effort to identify those ATM fees eligible for rebate, based on information it receives from Visa and ATM operators. In the event that you have not received a rebate for a fee that you believe is eligible, please call a Schwab Bank Client Service Specialist for assistance at 1-888-403-9000 (or for clients of independent investment advisors, a Schwab Alliance Service Team Member at 1-800-515-2157). Alternative investments, including funds that invest in alternative investments, are risky and may not be suitable for all investors. Alternative investments often employ leveraging and other speculative practices that increase an investor's risk of loss to include complete loss of investment, often charge high fees, and can be highly illiquid and volatile. Alternative investments may lack diversification, involve complex tax structures, and have delays in reporting important tax information. Registered and unregistered alternative investments are not subject to the same regulatory requirements as mutual funds.

Schwab does not provide investment advisors, or their clients, advice or make recommendations about potential investment in funds on the Schwab Alternative Investment platform. It is each investment advisor's responsibility to determine the suitability of such an investment for his or her clients. Alternative investments such as the participating funds are risky, and an advisor's clients may lose their entire investment in a fund.

When accepting an alternative investment, Schwab has neither endorsed nor approved the investment, and Schwab's acceptance of the investment into custody indicates solely that the investment meets the criteria of Schwab's existing systems and procedures, and that the acceptance in no way can be construed to be either an endorsement or evaluation of merit of any kind or an acknowledgment that the investment complies with any sanction, legal authority, or regulatory statute.

Schwab Mobile Deposit service is subject to certain eligibility requirements, limitations, and other conditions. Enrollment is not guaranteed, and standard hold policies apply. Requires a wireless signal or mobile connection. Mobile carrier data charges may apply.
